

## CSI PhD students bag multiple awards at YLLSoM Annual Graduate Scientific Congress

This year's congress theme was centred on "Decoding Science, Translation Medicine", and CSI graduate students garnered a number of top awards over various categories.

**10 February 2015**

## microRNAs in breast cancer: regulatory roles governing the hallmarks of cancer (Biological Reviews, Jan '15)

A comprehensive overview by Dr. Alan Prem Kumar's team describes miRNAs and their established functional relevance in breast cancer, their established target genes and resulting cellular phenotype.

**28 January 2015**

## Short-hairpin RNA library: identification of therapeutic partners for gefitinib-resistant non-small cell lung cancer (Oncotarget, Jan '15)

In this study carried out by Prof. Koeffler's team aimed to identify partner drugs and pathways that can induce cell death in combination with gefitinib in Non-Small Cell Lung Cancer cells.

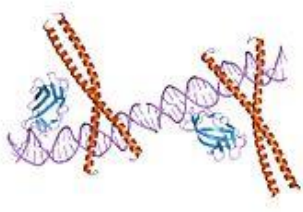

**20 January 2015**

## The RUNX family: developmental regulators in cancer. (Nature Reviews Cancer, Jan '15)

This review paper by Prof. Yoshiaki Ito's group describes how RUNX proteins communicate with key signalling pathways during the multistep progression to malignancy; highlighting the emerging partnership of RUNX with p53 in cancer suppression.

**16 January 2015**

## Save the date

### Frontiers in Cancer Science, 2-4 Nov 2015

Our annual conference returns for its 7th year to bring you the latest ground breaking cancer discoveries from top international experts.
