Hepatocellular Carcinoma Symposium 2014

Addressing the latest topics in liver cancer, the HCC symposium featured prominent liver experts across Singapore and keynote speaker Dr Scott W. Lowe from Memorial Sloan-Kettering Cancer Center.

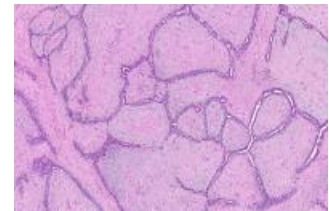

27 August 2014

Exome sequencing identifies highly recurrent MED12 somatic mutations in breast fibroadenoma (Nat Genet, Aug '14)

Seminal breakthrough in understanding the molecular basis of fibroadenoma is made through identification of critical gene called MED12.

14 August 2014

DEAD-box Helicase DP103 defines metastatic potential of human breast cancers (J Clin Invest, Aug '14)

Uncovering of unique gene DP103 now allows for easier prediction of both breast cancer relapses and responses to chemotherapy.

11 August 2014

Congratulations to PhD student Qi Lihua on receiving travel grant from the Japanese Cancer Association

The grant is awarded after a careful review process of submitted abstracts and provides financial support to participants at the 73rd Annual Meeting of the JCA.

8 August 2014

Save the date

Frontiers in Cancer Science, 3-5 Nov 2014

Our annual conference returns for its 6th year to bring you the latest ground breaking cancer discoveries from top international experts.

Early bird registration is now open with special rates for affiliates.
