Issue 4 | April 2014

## 2014 Avon Foundation-AACR International Travel Grant awarded to Dr Wang Tingting

This joint award from the Avon Foundation and American Association for Cancer Research provides travel support to abstract presenters working in breast cancer.

**23 April 2014**

## SPHK1 regulates proliferation and survival responses in triple-negative breast cancer (Oncotarget)

SPHK1 inhibition, which effectively counteracts oncogenic signaling through ERK1/2 and AKT pathways, is a potentially important anti-tumor strategy in TNBC.

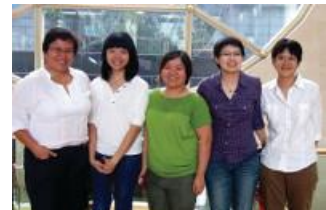

**17 April 2014**

## Discovery of cancer-specific marker for gastric cancer stem cells published in Cancer Research

Findings by Dr Chan Shing Leng and team provide important functional evidence that CD44v8-10 marks human gastric cancer stem cells and contributes to tumour initiation.

**8 April 2014**

## CSI co-hosts premier haematology event

Haematology experts gathered at Suntec Singapore from March 29-30 2014 to discuss the latest in blood disorders research.

**30 March 2014**

## Save The Date

### CSI Open House

We are opening our doors to students once again! Our 2nd CSI Open House is happening on 30 July 2014.

### Singapore Ovarian Cancer Symposium

Listen to experts discuss potential synergies in ovarian cancer on 27 June 2014.
